MINING SERVICES

P5000 FUEL & LUBRICATION TRUCK

Mining • Deep Pit • Civil • Construction

Features:

- 6x4 or 6x6 drives
- Automatic transmission
- Zero spillage concept
- Robust construction
- Ergonomic operator cabin
- Hazard reduction design
- User friendly operation
- Certified ROPS canopy
- Low running cost

Applications:

- Deep Pit Mining
- Mining
- Underground Mining
- Civil Construction
- Fuel Tanker
- Drill Support Truck
- Contractor Truck

P5000 FUEL & LUBRICATION TRUCK

TANK MODULE

- Heavy duty chassis mounted steel eight (8) compartment service module
- Compartments have removable bolt on access hatches on the top
- Sand blasted externally, primed, white two pack paint
- Yellow safety rails
- Air cleaner and filter storage boxes mounted left hand side of the module with sealed doors
- Enclosed pump and reel cabinet with horizontally hinged compartment door for ground level access on right hand side
- Schedule 80 steel high pressure oil and fuel delivery pipes
- Environmentally banded pump and reel compartment
- Banded area 800 litre capacity
- Polymer lined water/coolant and waste oil compartments
- Single action ball valve isolators to all tank compartment outlets
- Oil, water/coolant fast fill at common point
- Tanks vacuum cleaned, flushed and sealed

TANK COMPARTMENTS

• No 1	Diesel	5,000 litre
• No 2	Oil	750 litre
• No 3	Oil	750 litre
• No 4	Oil	750 litre
• No 5	Oil	750 litre
• No 6	Water	500 litre
• No 7	Waste	500 litre
• No 8	Coolant	500 litre
• Tanks 6,7 and 8 polymer lined		

DIESEL FUEL

- Graco 2" double diaphragm pump
- Cabin mounted Piusi K700 fuel meter with electronic LCD display
- Standard Wiggins fast fuel fill and vent system to diesel tank
- Cox 2" hose reels
- Samoa 0.75" hose reel for light vehicle fuel and auto shut-off hand piece

LUBRICATING OIL

- Samoa 0.75" hose reels compartments 2-5
- Samoa wire braided hose, Graco easy grip hand piece with dripless nozzles for all oil dispensing reels
- Graco 5-1 high volume oil pumps compartments 2-5
- 1.00" BSP fast fill point at tank level for all compartments
- Full length sight gauges

GREASE

- Standard 400kg grease tank (fully sealed) with 2" BSP connection for bulk grease transfer
- Four (4) mounting bolt retention
- Samoa 0.375" grease reel high pressure steel braided hose, hand piece and flexible nipple adaptor
- Samoa 0.75" bulk grease reel and isolation valve

COOLANT or WATER

- Graco 0.75" double diaphragm pumps for water and coolant
- Samoa 0.50" hose reels for compartments 6 and 8
- 1.00" BSP fast fill at tank level for compartments 6 and 8

WASTE OIL

- Graco 1.00" double diaphragm pump
- Samoa 0.75" hose reel
- Samoa wire braided hose and isolation valve
- 1.00" BSP ground level drain
- Airman PDS90 - 90 cfm diesel air compressor
- Donaldson pre and air cleaner assembly
- Snorkel exhaust
- Independent electrical system with lockable isolator
- Samoa brand 0.50" air hose reel
- All systems are air operated
- Compressor stop start accessible from ground level

ROLL OVER PROTECTIVE STRUCTURE

- ROPS canopy mounted on truck chassis

ELECTRICAL

- One (1) amber flashing light and six (6) service lights
- Two (2) compartment work lights
- Two (2) reversing lights at rear. Dual stop/tail and indicator clearance lights
- Reverse alarm

FIRE SUPPRESSION

- One (1) 9kg fire extinguisher - accessible from ground level

REAR TRAY GUARD

- Tray fitted with rear bumper and lighting
- 1.8m rear tray with steel floor

RAILS AND GUARDS

- Top safety rails, guards and steps fitted with anti slip surface

MODULE MOUNTING

- Spring loaded isolation mountings with neoprene rubbing blocks on the chassis

SIGNAGE

- Company logo on LHS and RHS
- Company reflective asset number 600mm x 300mm on LHS and RHS
- All hose, reels and fill points labelled
- Safety signage, compartments product labels, flammable liquids to meet Australian Standards

TRUCK CABIN/CHASSIS

- 6x4 or 6x6 drive - long chassis automatic transmission
- Individual wheel covers and spray shields to rear axle

COMMISSIONING

- Pre-delivery operational checks
- Meter calibration and flow rate testing
- Parts book and service manual

ADDITIONAL OPTIONS

- Allison MD3060 298kW hydraulic retarder
- Versacool high ambient transmission cooler
- High mount upright muffler
- Exit oil filtration
- Front and rear towing hitch
- Digital oil dispensing meters
- High volume diesel delivery
- 12R.22.5 off road tyres
- Jump start receptacle
- Exhaust exit pipe extended above cabin
- Tropical tint side and rear windows
- Relocated air delivery tank for extra ground clearance
- Upgraded exhaust retardation integrated with transmission control
- Electrical hour meter
- Independent electrical system with lockable isolator
