

AIRMAN SDG60 DIESEL GENERATOR

PRODUCT SUMMARY

Airman SDG60 Diesel Generator – Exceptionally Quiet (EQ)

- 4 cylinder Direct Injection / Turbo Charged
- Suitable for a wide range of applications on construction/earthwork sites
- Utilises brushless alternator for maintenance-free use
- Contains emergency stop device as standard
- Specially designed air inlets to increase airflow & lower suction pressure
- 110% fluid capacity containment utilising double-wall steel fuel tanks
- Houses a large capacity fuel tank with three-way selection valve allowing easy connection to an additional outside fuel tank
- Specially designed construction for prevention of rain penetration
- Low operating noise
- Highly attenuated muffler and special exhaust

EQUIPMENT SPECIFICATIONS

- Type: Super Silent
- Nominal Output: 50 kVA
- Engine manufacturer: Isuzu
- Engine Power: 40 kW
- Nominal Current: 40 A
- Nominal Voltage: 400/230 V
- Phase: 3-Phase / 4-Wire
- Weight: 1,400 kg

PRODUCT SPECIFICATIONS

ENGINE	40kW
MAKE	Airman
MODEL	SDG60
TYPE	Diesel Generator
