“

I visited site this week and took time to inspect the new vehicle and was very impressed with the quality of workmanship and overall presentation of the vehicle. Plantman completed the build on time and provided constant feedback to Hitachi to ensure a great outcome for our project at Murrin Murrin. Once again Thank you, we look forward to working with Plantman in the future.

# OUR COMPANY PROFILE

## A LEADING PROVIDER OF HEAVY EQUIPMENT AND SERVICE VEHICLES

**Equipment selection & efficiency is the key to completing high-scope projects successfully and achieving profit. We have partnered with mining and construction companies for three decades. Plantman knows what it takes to reach project completion on time and on budget.**

**A**s the industry leader in service trucks, we have been providing innovative solutions to meet your needs since 1992. We were one of the first companies to manufacture standardised production based Service Trucks and equipment with a focus on design and innovation that is unmatched by any other manufacturer today - which you can see from our extensive range.

Innovation has always inspired us; it's what drives everything from designs to the detailed development process at Plantman to reach the final refined product ready to go to work.

We offer a wide range of services for mining, construction and civil companies, from sales and rentals to parts & service. Our total approach will exceed your expectations and at the same time assisting your company to achieve at the highest level, whilst focusing on business growth.

Here at Plantman, we like to keep things running smoothly for you. Our team is dedicated to deliver you the best possible experience on every job no matter how small or large.

**Michael Elliot**  
Managing Director

# WHY CHOOSE PLANTMAN?

## PERTH'S MOST COMPREHENSIVE MINING, EARTHMOVING, CONSTRUCTION & CIVIL EQUIPMENT COMPANY IN WA

**P**lantman is a privately owned and operated company delivering a broad range of heavy equipment products and services to the Australian & international mining, earthmoving, construction & civil equipment industries. Our company provides mobile equipment for sale or rent, together with maintenance, parts, engineering, and fabrication services.

Our workshop and field service departments have continuing and ongoing commitments to a variety of clients who contract Plantman to complete mechanical and electrical repairs, fabrication and engineering rebuilds and modifications. Commencing operations in 1992 founded by directors Michael Elliot and Shaaron Whitton, Plantman Equipment has been a pioneering developer of mining service

vehicles, and now designs and manufactures a range of over 50 different service vehicle modules from its main production facility in Perth, Western Australia. Today Plantman is known across the earthmoving industry for consistently delivering mine specification equipment, backed by comprehensive service and support programs.

With clients in 12 countries around the world, Plantman has the proven experience and industry knowledge to handle the largest earthmoving projects Australia wide & internationally. From our Perth-based head office, workshop and warehouse, we can assist you with all of your on-site and off-site equipment needs.

“

My dealings with Plantman on Hiring/Repairing the equipment has been great over the short time I've been in this role with Cundaline. Specifically dealing with Frank and Marc found their professionalism outstanding when getting the plant organised on time and in good condition.

**CUNDALINE RESOURCE**

**GIUSEPPE TASSONE**

**PLANT MANAGER**

# OUR MISSION STATEMENT

**PIONEERED WITH PURPOSE, POWERING THE MINING, EARTHMOVING, CONSTRUCTION AND CIVIL INDUSTRY FOR THE FUTURE**

## OUR VISION

Our vision is to provide innovative and low cost solutions to make your experience on every job effort-less. We strive to make a direct impact, operating with integrity and respect, working together with you to achieve success on every job in the mining, earthmoving, construction and civil industries.

## OUR MISSION

Our mission is to achieve excellence in making a difference in the future of the mining, earthmoving, construction and civil industry. We know that we are not just a cog in this machine, but rather an integral part of your company's success. We welcome the opportunity for challenges thrown at us because it means getting you one step closer to achieving your goals.

Our customer focused team at Plantman is committed to give you the best experience possible. We work hard every day to make you feel confident about your choice in working with us and our dedication will not waiver, no matter what your equipment requirements are.

Our goal is not only about providing a high quality service, but we also want you as our customer to feel confident in your purchase for years after it has been delivered. We are always striving towards creating value with the intention of supporting one another while meeting or exceeding expectations daily.

## PLANTMAN®

-  The largest privately owned equipment rental fleet in Perth is here to serve you. With our vast experience, we can provide an efficient and cost effective solution for any project!
-  Featuring over 30 years of experience in supplying the earthmoving, mining, construction and civil industry.
-  Our team of qualified mechanics can handle any repair for your equipment. Our 24/7 customer service ensures that you have someone on email, phone or in person, ready to help!

# OUR **VALUES**

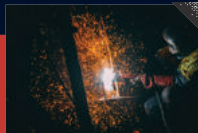

## WHAT WE ASPIRE FOR

**We are committed to a high level of professionalism.**

We care about our clients and believe that you deserve nothing but excellence from us, which is why we work hard every day in order for them to achieve success with their projects or goals by following these core values:

### **1 PIONEER**

We provide innovative and low cost solutions to make your experience on every job effortless. We strive to make a direct impact, operating with integrity and respect, working together with you to achieve success on every job.

### **2 PURPOSE**

Our purpose is to strive for the highest level possible in all aspects of our final product. We want to work with you, so you feel confident working with our Team and our equipment by delivering high quality service and products on time and on budget.

### **3 PEOPLE**

Our goal is not only about providing a high quality service, we also want you as our customer to feel confident in your purchase for years after it has been delivered. We are always striving towards creating value with the intention of supporting one another while meeting or exceeding expectations on a daily basis.

### **4 PERFORMANCE**

Our hard work and dedication to excellence will always make a difference. We know that we are not just a cog in this machine, but rather an integral part of our team's success. We're more than happy to take on any challenge thrown at us because it means getting one step closer to achieving your goals.

### **5 PROFESSIONAL**

Our customer focused team is committed to give you the best experience possible. We strive every day to make you feel confident about your choice in working with us and our dedication will not waiver, no matter what your requirements are.

### **6 PRO-ACTIVE**

A pro-active individual is someone who uses their initiative and takes steps to make sure that the work they do goes in a steady, positive direction. Our team promotes forward planning and taking steps to ensure innovative productivity in the workplace by thinking outside-the-box.

# PLANTMAN RENTAL

## WHAT WE DO

OUR ONE STOP SHOP IS READY TO DO THE WORK

### SALES

When it comes to finding the perfect mining equipment for your next project, there is no better place than ours. We have access to a range of both local and global suppliers, so we can supply you with everything you need. Plantman also build industry standard Service Trucks, Water Trucks, Diesel Tanker, Crane Trucks and more available all year round.

### PARTS

Plantman has the resources and knowledge to locate any parts that you may require and freight them to you as fast as possible from our extensive supplier network. We can also supply standard replacements that will keep your production strong and profitable, no matter what comes up along way.

### RENTAL

The big, heavy earthmoving equipment and service trucks are waiting for you at Plantman. We'll deliver the right mining machine to your specifications—on time while maximising profits and minimising risks - our late models offer short term hire as well as long term rentals. We're always acquiring new equipment so that you can access cutting edge technology at all times.

### SERVICE

Our team is your one-stop-shop for quality refurbishing and repair services. Whether it needs an upgrade or a rebuild, our professional staff always comes prepared with the tools they need to get the job done quickly and without fuss. Whether it be on your site or at Plantman Workshop, our certified team is fully equipped.

# YOUR INDUSTRY

EQUIPMENT READY TO WORK FOR ALL JOBS

## MINING

The mining industry is a robust and thriving one, depending on high quality equipment for every success. We understand this fact well - that's why we're here to provide you with all your equipment needs.

## EARTHMOVING

Earthmoving is a tough industry, we know that it takes all kinds of equipment to get the job done. Plantman has a wide range of earthmoving equipment ready to do just this!

## CONSTRUCTION

We are a leading provider in construction equipment, delivering efficient and safe solutions for your projects. Our broad range of equipment is project ready.

## CIVIL

The civil industry requires dependable and durable machines for their work. We offer a range of equipment to meet the needs

# OUR RENTAL FLEET

At Plantman, we have a large, modern fleet of rental equipment that is available for short-term or long-term hire across Australia. With a diverse range of equipment to choose from, you can rapidly scale up or down in line with the requirements of your project/contract.

## MINING SERVICE TRUCKS

## IMPORT - NEW AND USED

Importing heavy equipment into Australia can be a time consuming process. It's important to assess the condition and cost of the equipment, co-ordinate reliable transport, comply with regulations and organise all the necessary paperwork and permits.

The Plantman team have many years of equipment importing experience. We can use our expertise to help you every step of the way and handle any customs, quarantine or transport requirements on your behalf.

## EXPORT - NEW AND USED

At Plantman, we have been exporting new and used heavy equipment to our international clients for over 30 years.

So if you're looking to purchase a piece of equipment in Australia for use overseas, we can help you streamline the export process.

**OVER 1000 SALES  
NEW AND USED  
EQUIPMENT  
SINCE 1992**

“

From the start working with Frank regarding setting up a different style of service body was more than helpful, and this enabled us to get a truck that meets our requirements. Pricing was good and there were no issues when we made changes when they were requested. The response was excellent, I have made multiple requests to have other things added and modified from learnings here on-site and these were done to a great standard. The delivery was good even due to the Covid restrictions. We were very happy with the result and will be recommending Plantman if requested and hopefully dealing with Plantman in the future when we upgrade trucks again. Thank you again for the work put into the truck and body.

# CUSTOM BUILT SERVICE TRUCKS

Designed with maximum durability, flexibility and usability in mind, Plantman's Custom Built Service Vehicles are one of most recognised and regarded service trucks within the Australian mining and civil construction industries.

Successfully field tested in some of the harshest mining environments in the world since 1992, Plantman has refined its fleet design based on continued user feedback and available technology to produce highly reliable and durable vehicles that provide sites with safe and cost effective solutions.

Plantman Trucks are built to allow sites to tailor all specifications to meet individual site fleet mix and job requirements. Each truck can also be upgraded on an ongoing basis to match sites ever changing service and safety requirements.

The Service Truck provided has been of great utility on our projects and we appreciate very much Plantman's willingness and abilities in tailoring a solution that met our needs.

# OUR SERVICES

## GET YOUR EQUIPMENT BACK TO WORK

Your business is important to us and so is the equipment that runs it. That's why we work hard every day to provide a complete servicing solution from repairs to full fleet maintenance with professional personnel who can get things back up and running quickly at an affordable cost, without sacrificing quality or customer service.

We are here to make your equipment reliable and site ready. No matter the issue, we have a solution that will work for you!

# OUR PARTS KEEP YOUR EQUIPMENT MOVING

At our dedicated parts warehouse in Perth, we stock a wide selection of quality parts for a range of equipment, including:

**ELECTRICALS**

**PUMPS**

**GUNS & HANDPIECES**

**METERING EQUIPMENT**

**HOSE REELS**

**MISCELLANEOUS**

Through our extensive supply network, we can keep your equipment moving by sourcing parts on your behalf. Our warehouse can order and despatch to you the same day.

## FULLY MAINTAINED FLEET SOLUTION

Plantman can fully overhaul and refurbish all types of equipment at competitive prices. With our quick turn around and established reputation for reliability, you know you can trust Plantman to keep your mine site production flowing. We are here to ensure that your equipment will work efficiently and reliably around the clock.

With a proven track record in high specification, low hour, quality equipment, Plantman's team of experienced mechanics can offer you a range of maintenance services to keep your mining fleet operational. From refurbishing older equipment to servicing and/or general repairs and maintenance on newer equipment, ensuring it all runs smoothly and meets industry standards.

With over 30 years of experience in providing fleet services and expertise in maintaining our own fleet of mining service trucks, heavy earthmoving, and construction equipment. We deliver the highest level of service and repairs in our industry.

From start to finish, our one stop shop is unrivalled and ready to do the work!

It was a pleasure working with the Plantman team. Overall very smooth and accurate transaction. Very efficient delivery time. Well priced for the current market rates. Very attentive to our requests, meeting all our target requirements. The unit was in impeccable condition and delivered the required works with great satisfaction. Plantman team went out of their way to assist us with all our enquiries, happy to deal with them again in the near future.

# QUALITY ASSURED

IMPLEMENTING INTEGRATED SYSTEMS THAT DELIVER RELIABLE SERVICE

## BUREAU VERITAS CERTIFIED

Plantman Equipment commits to a policy of excellence and strives for the best possible stakeholder experience. This is only achievable by ensuring every team member does their part in producing excellent service that exceed stakeholder expectations.

We have developed our processes and procedures over many years after achieving ISO 9001 accreditation in 1997, to consistently provide products and services that meet our stakeholders' requirements. This ensures we deliver a consistent product built to the highest standard.

Plantman, using the ISO 9001 platform, aims for continual improvement in its processes and procedures. We are customer focused consistently measuring our customers satisfaction with their

experience in dealing with Plantman. Our supplier network is consistently under review to ensure stock availability and quality is maintained. A major part of the QMS is focused on employees, to ensure that they are inducted and trained correctly for the work they perform. This ensures the quality of our products is maintained at the expected level and is able to be continually produced to the same standard.

As part of our QMS monitoring, we endeavour to get as much customer feedback as possible. Our customers are contacted randomly to make sure they are happy with the product and services delivered.

This helps us to identify any improvements in our processes, to deliver a better customer experience.

# LICENCE & ACCREDITATIONS

## WITH ALL NECESSARY PERMITS TO OPERATE

For over 30 years, we've built our reputation on delivering high quality equipment to mine specification standards. That is why our fleet of rental equipment is highly maintained and our service vehicles are manufactured with the highest quality parts and components.
